

Nuplex & BASF Precision Grouts & Mortars

Precision Grouts

1. High Early Strength
2. High Ultimate Strength
3. High Tensile Strength
4. High Flexural Strength
5. Shrink Free Hardening
6. Free Flowing
7. Fast Set
8. Good Site Tolerances
9. Excellent Working Time
10. Easy to Use

Wall Panel Support
Masterflow 870 / 880

Column Support
Masterflow 870 / 880

Machine Base Support
Masterflow 870 / 880

Repair Mortars

Fast Setting, Excellent Working Time, Easy to Use, Reduced Shrinkage, Fibre Reinforced

Re Form Work
Emaco Nonocrete R2/R4

Overhead Patching
Emaco Nanocrete R2/R4

Vertical Wall Repair
Emaco Nanocrete R2/R4
