

Case History NCP 257

Industry Sector

Domestic Bathrooms

– Waterproofing with appeal

PROJECT NAME:
Gare Residence - Nelson

PROJECT REQUIREMENT:

As a Compliance Manager for a major fish processing facility, the client had very specific requirements.

- Totally seamless
- Non-slip to floor
- Must look like Marble Tiles
- Coves at wall to floor junction
- Coves to internal corners of walls
- Easily cleaned

NUPLEX Solution

With the very specific guidelines set down the Solution was simple Situclad EWS was recommended due to its versatile nature in an in-situ application.

Situclad EWS is water-based epoxy incorporating fibreglass matt and a fine surfacing tissue.

The Terraflake in "tile pattern" is an attractive system that has aesthetic appeal whilst exhibiting a high degree of durability.

Both systems have had proven success in a wide variety of situations both industrial and domestic. Nuplex offer a range of solution to provide clients with a finish to suit their requirements.
