

Case History NCP 255

Industry Sector

Food Processing –Fish

– High Pedestrian Traffic

PROJECT NAME:
King Salmon - Nelson

PROJECT REQUIREMENT:

Slip resistance is crucial in a fish processing facility.

There had been a number of slips on the existing resin floor and staff safety is paramount in an operation such as this.

The floor area needed to be easy to clean, have high degree of non-slip with low maintenance costs and longevity.

NUPLEX Solution

A resin bound aggregate, Nuplex Traxite was recommended due to its proven abilities in a wide range of circumstances.

Nuplex Traxite is a system that can be tailored to suit the client needs by altering the degree of non-slip using various combinations of aggregates.

Nuplex Traxite has a proven history of success in many facilities around New Zealand.

Product: Nuplex Traxite®

Size: 150m²

Contractor: C G Coatings Ltd

Specifier: King Salmon

Project Manager: King Salmon

Completed: June 2012
