

Case History NCP 254

Industry Sector

Public Entertainment

– High Pedestrian Traffic

PROJECT NAME:
Roxy Cinema - Wellington

PROJECT REQUIREMENT:

High Visual Enhancement whilst Durable

Movie Theatres are areas of high use and the "Art Deco" Roxy Cinema is no exception.

The floor area needed to be smooth, easy to clean and have a high degree of wear resistance whilst having an outstanding visual appeal to complement the surrounding decor.

NUPLEX Solution

A resin flooring system Nuplex Architectural Terrazzite was recommended due to the versatile nature of the product and the ability to be able to provide variations on colours and patterns alike.

Architectural Terrazzite is mixed on site to colours and patterns as designed by the Architect.

The floor then goes through various stages of diamond grinding to expose the marble effect and give a high degree of shine.

A versatile range of colours and patterns can be achieved and the imagination can be left to run a little wild.

Product: Nuplex Architectural Terrazzite®

Size: 160m²

Contractor: B M Scott Ltd - Levin

Specifier: B M Scott Ltd - Levin

Builder: Peter Camp Builders - Ltd

Completed: March 2011
