PROJECT NAME

**Living Foods
Nelson**

PROJECT REQUIREMENT

An older food processing floor had a badly worn floor and cracks in the concrete slab.

The requirement was for a heavy duty floor that would withstand most liquids and chemicals and the floors would self drain to the waste (drain).

The side coves were poor and unhealthy.

NUPLEX Solution

**Product: Sureshield 9mm
was recommended.**

A fully adhered heavy duty floor topping.
Hard wearing.
Hygienic and seamless.
Laid to falls and drains.
Integral drains and coves for hygiene and ease of clean.

Contractor: Construction Coatings Ltd

Completed: 2013

The images above shows the Sureshield being applied to the repaired floor (crack repaired)
