

Introducing a revolutionary non-heating carpet seaming system that's simple to use, offering faster, smarter and more profitable results. By never getting hot and never touching the adhesive, The KoolGlide® Carpet Seaming System is redefining the art of carpet installation.

- *No smoke or odor*
- *No heat distortions*
- *No dripping glue*
- *No burning - tool never gets hot*
- *No damage to carpet*
- *No time-consuming clean up*
- *Superior seams*
- *Works with all backings*

And, because the KoolGlide® Carpet Seaming System is reversible minutes or years after installation, repairs and patches can be done from the top of the carpet in minutes.

Sinch Technology uses a light-weight, handheld electronic tool that melts the proprietary adhesive from the top of the carpet using a pre-programmed heating cycle, controlled by a state-of-the-art microprocessor. Precise amounts of adhesive and tightly-controlled heating provide for a consistent low-profile seam, instantly delivering quality installation with the simple push of a button.

## Products

### **KoolGlide® 100**

*KG100 STD*

The original. This tool has only one heat setting and is for use over pad and in environments of 65 degrees and higher.

### **KoolGlide® Pro**

*KC200 PRO*

This tool has three heat settings. It can be adjusted for use over wood, concrete and other hard surfaces, as well as in cooler environments.

### **KoolGlide® Tape - Uncoated**

*- KGT450 UC*

4½ inch tape with reinforcing scrim.

Recommended for most seaming. Ideal for repairs, borders, custom rugs and decorative work because the tape can be overlapped. This tape works on all common backings.

### **KoolGlide® Tape - Coated**

*- KGT450 SC*

4½ inch tape with reinforcing scrim and silicone backing. This tape eliminates sticking to the pad but cannot be overlapped. This tape works on all common backings.

### **KoolGlide® Tape - Doublestick**

*KG450 DS*

4½ inch tape with reinforcing scrim and pressure-sensitive backing. This tape is for "direct glue" and "double glue" applications.

### **KoolGlide® Tape - Utility**

*KGT350 UT*

3½ inch tape with pressure-sensitive backing but no reinforcing scrim. This tape is used for a variety of bonding applications such as backsplash, cove corners, stair treads and wood or laminate flooring.

### **KoolSticks® - Seam Sealer**

*KS100 SS*

Glue sticks designed to re-activate at the same temperature as the KoolGlide® tape. Perfect for seam sealing with the KoolGlide® System.

### **Cordless Glue Gun**

*KS200 GG*

Cordless glue gun and electric charging stand.

### **Tape Guide**

*KGA100 TG*

Aid for aligning tape under seam.

## Feedback

*"Because the KoolGlide is completely reversible in an instant, we've saved complete jobs and virtually eliminated the potential of costly error."*

*- Carlin Farris  
CM - Fleetwood Homes*

*"With the old hot irons, we had to worry about dripping glue or even burning the carpet and backing during installation. We don't have to worry about any of that with the KoolGlide system. You don't smell anything, and there's no risk of fire."*

*- Melvin Santiago  
Owner - Floor Tech of Central Florida, Inc.*

*"I haven't gotten a single complaint about smell since I started using the new system. The quality is 100% better, and the usability of the tool is amazing."*

*- Oscar Carsey  
Owner - Oscar Carsey Carpet*
